

# BRITE•SITE™

TRITIUM + FIBER-OPTIC HANDGUN SIGHTS

When you need to make a fast and accurate shot, brightness counts. We brought fiber-optics to the shooting sports industry years ago for this very reason. We have now paired them with our tritium night sights to create a consistently bright sight picture—day or night! Our **patented combination of Tritium and Fiber-Optic technologies** unites the best of both worlds. Whether you are in glaring daylight or complete darkness, you can count on TFO® to provide a bright and reliable sight picture.

## FEATURES

- Unmatched visibility in all shooting conditions 24/7
- Utilizes quality Swiss tritium for maximum brightness
- Glows-in-the-dark
- No batteries required
- Concealed fiber cannot be seen by target
- FORTRESS FINISH™ provides a permanent protective coating for maximum protection
- Snag resistant design / fits standard holsters
- Patented

MODEL	MODEL	COMPATIBLE MODELS

\* Novak® LoMount cut replacement sights are designed for 1911-style handguns with existing fixed Novak® LoMount dovetail cut slides, however some fitting may be required. Installation by a competent gunsmith is recommended.

Due to gun manufacturers' machining tolerances, point-of-impact may differ slightly. Please note that yellow fiber-optic is intended to appear less bright than green.
