

Planting Instructions for Secret Spot and Secret Spot XL

Eliminate grass in the area to be planted by weed-eating, mowing or spraying a Round-Up type herbicide. (If Round-Up or other herbicide is used, check the label for number of days to wait before seeding.) NOTE: Plants require at least 4 hours of sunlight per day.

Drag or rake area thoroughly to remove grass and other debris leaving exposed soil..

For best results add:	fertilizer (per bag)	lime (per bag)
Secret Spot	25 lbs of 13-13-13	100 pounds
Secret Spot XL	100 lbs of 13-13-13	500 pounds

Broadcast Secret Spot or Secret Spot XL

Re-rake area lightly.

Seeds will germinate in week after rainfall.
