

Realtree Xtra[®] Green Camo

In early fall season and any time the situation calls for green, this 3D pattern delivers. Named for its extra effectiveness, Realtree Xtra Green camo is the best early-season pattern on the market. Use it from early fall bowhunting, muzzle loading and gun seasons until the leaves change, and then again from mid to late spring. It's also perfect any time the season or situation calls for green camo.

Proprietary printing technology creates 3 distinct layers of pattern. The pattern combines leaves, colors, open areas, and extreme contrast in a multidirectional design that blends with nearly any green habitat. Realtree Xtra Green camo provides ultimate versatility.

Realtree Xtra[®] Camo

Its 12 warm, natural colors and 3D pattern blend effectively in fall, winter, and early spring. The Xtra in Realtree Xtra stands for extra effectiveness in the field. This new camo pattern blends perfectly year round in a variety of habitats. It blends best from the leaf change of fall through winter, then again in early spring before green-out.

Using proprietary printing technology, we layer sharp foreground elements over a progressively ghosted mid-ground and very soft background. The versatile new camo design includes tree trunks, large and small limbs, leaves of many types and colors, and large open areas.

Realtree MAX-1[®] Camo

One of the best Realtree camo patterns for all the places deer and antelope roam. Realtree MAX-1 camo lets hunters in broad terrain melt into their surroundings. MAX-1 camo combines the perfect balance of neutral earth tones, prairie grasses, brush, rock, sage and open zones—with just a hint of shadow detail for added depth and realism. Use the versatile Realtree MAX-1 camo pattern as your go-to for hunting sage-covered hillsides, mesquite

flats, croplands and wide-open prairies. Also choose it for deserts and rocky terrain. Realtree MAX-1[®] is the one to wear for hunting mule deer, whitetail, pronghorn, elk, bighorn and turkey. It's an ideal predator hunting camo, too. *Formerly Advantage MAX-1.*

Realtree MAX-1 XT[™] Camo

Extend your hunt with the perfect camouflage for any open-country scenario. Realtree MAX-1 XT[™] allows hunters to eXTend their hunt into all types of terrain. MAX-1 XT blends beyond belief into the smallest amount of cover available. In fact, it works pretty well in no cover at all. It's the perfect camouflage for any open-country scenario, but is incredibly effective in woody cover too. MAX-1 XT truly opens up new hunting opportunities for hunters everywhere.

Realtree AP[®] Snow Camo

When the landscape is white, get the best camouflage pattern for snow. With Realtree AP[®] Snow camouflage you'll be ready when that monster buck appears in range. The weather outside can be frightful, but you'll be ready with white camo that's designed to work. Wearing Realtree AP[®] Snow camouflage, you can become one with the snowy landscape.

Realtree MAX-5[®] Camo

Maximum effectiveness for your waterfowl success. Built with waterfowlers in mind, new Realtree MAX-5 is filled with cattails, reeds, cane and grasses to blend into flooded marshes. Plus corn, wheat, oats and sunflowers to hide you in open fields. It has branches, twigs and leaves that work in flooded timber. And with open areas that mimic mud, water, bark and shadows, MAX-5 literally adds another layer of invisibility to camo — no

matter where or how you use it.

Of course, all MAX-5 pattern elements are strategically placed to create super-realistic tone, contrast and shadow. Viewed up close, MAX-5 offers incredible detail. At a distance, the pattern obliterates the human outline completely. The result? Maximum effectiveness for your waterfowl success.

What Realtree® pattern is best for your region and conditions?

Mountains/Rocky - Realtree Xtra or Realtree Max-1 XT

Mossy Oak Obsession®

Designed to deceive the best eyes in the spring woods. Being invisible to turkeys has been a lifelong goal for Toxey Haas, founder of Mossy Oak. The result of this relentless drive is the single best spring turkey hunting pattern available, appropriately named Obsession. Launched in 2004, Obsession quickly proved itself to be the standard by which all turkey camouflage is measured.

Obsession builds on the success of the elements used in Break-Up, like ghost shadows and realistic limbs, to expand effectiveness when the woods are taking on spring colors. These elements include a digitally enhanced, lighter background and the addition of carefully selected leaves and spring tones.

Mossy Oak Break-Up Country®

It's more than a camo pattern. It's who you are. Using dramatically larger limbs, leaves, bark, branches and other digitally enhanced natural elements, new Break-Up COUNTRY annihilates your outline and fuses you with the terrain like no pattern that has come before it — at any distance, anywhere across the country.

Mossy Oak Break-Up Infinity®

Depth, Detail, and Definition. Featuring unprecedented depth, unequalled detail and elements with remarkable contrast, Break-Up Infinity truly offers hunters another dimension in camo.

Each element — leaves, limbs, acorns and branches — was selected to create unmatched realism and contrast to break up a hunter's silhouette. Then they were placed over multiple layers of actual images from the woods to create a multi-dimensional depth of field unlike any camouflage ever created. Break-Up Infinity is the first pattern ever that you can actually look into much the same way you look into the woods. *Available in select MidwayUSA accessories.*

MULTICAM®

MultiCam®

The MultiCam® pattern was developed to effectively limit the visual and near-IR signature of a person operating across a very wide range of physical environments and seasons. After many successful evaluations, after being proven in combat, and after becoming the officially issued pattern of the US Army for all Afghanistan operations in 2010, MultiCam® is the proven multi-environment concealment solution.
